

Chorus Dismissal Procedures

- Please pull up to the building from Boyce Road and pull all the way to the end of the sidewalk, pulling past the Main Office area if room allows so as many cars can fit along the green “loading zone” as possible.
- Students will be dismissed from the archway by the main office area and will only be allowed to go out to cars parked next to the sidewalk in the green “loading zone” marked on the map below.
- After the cars move out of the “loading zone,” cars in the orange zone should **move as far forward as they can** so that as many of the next group of students may leave as possible. This process will repeat.
- If the front of the building’s sidewalk zone is already full, please pull off of Boyce Road towards the back of the car rider entrance and curve around so as to create a cohesive and continuous line of cars.
- If your child is not outside yet when you pull in to the green “loading zone,” please help keep the flow of traffic going by pulling around through the parking lot and re-merging back in line.
- Thank you all for your help making dismissal a smooth and safe process for your children!
