

Dear Parents and Guardians,

It's Back-To-School time! We hope you enjoyed your summer and are ready for an exciting 2019-2020 school year. We are pleased to be your children's food service provider.

One of our most important educational initiatives is keeping your child active and healthy! As your school's meal provider, Aramark Education has developed this year's "Global Adventure Ace" nutrition education program that will be fun for your elementary school children while encouraging them to eat healthy, be active and get plenty of rest.

This year, each month, Global Ace and his friends will be demonstrating the importance of eating fruits and vegetables while exploring the world! Ace and friends will be featured in fun, educational gifts that students will receive to help them learn more about health and wellness. Examples of these gifts include items such as a chef hat, a folder, and binoculars.

Our "Global Adventure Ace" program has been designed to engage students with fun facts and teach nutritional habits they need to grow healthy and strong. A proper diet improves student physical and mental strength, fights illness and provides energy and nutrients to keep their bodies functioning properly. Healthy eating will help your students excel in the classroom and at home.

One thing that you can do to help this important cause is to encourage your students to eat breakfast every day. The demands of the classroom can be difficult for children who are hungry, as you know. Several studies indicate students who eat breakfast can concentrate better, earn higher grades and have fewer illnesses. We do offer various breakfast programs - either in the cafeteria or in the classroom to ensure students can start the school day right!

We look forward to working for you to ensure all of our students are healthy and ready to learn every day. Our promise is to help students flourish!

Sincerely,

Jennifer Marken
